

HUNG TRAN

Software Engineer

Houston, TX | (281) 928-6100

<https://hptran7.github.io/Portfolio/> | <https://github.com/hptran7> | <https://www.linkedin.com/in/hungtran0713/> | tran.hung0713@gmail.com

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software engineer, I worked as an Account Executive for Sunrise Plastics where I worked closely with the Vice President of Sales to manage main accounts amounting up to 60-70% of sales revenue of the firm.

Software Development Skills

- Debugging, JavaScript, Typescript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Sequelize, Bootstrap, Flexbox AWS, HTML, CSS, MongoDB.

Education

The University of Houston | B.A. in Finances, minor in Accounting | Houston, TX 2015 – May 2018

DigitalCrafts | Certificate in Software Engineering | Houston, TX Sep 2020 – Jan 2021

- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

Beat The NetGorilla | <http://net-gorilla.surge.sh> | <https://github.com/hptran7/Beat-The-NetGorilla> Jan 2021

- Beat The NetGorilla is a speed typing game using React. Every typing game is generated randomly to create a unique experience for the player. Your speed and accuracy are calculated simultaneously so you can check your progress.
- Built with React, Redux, React-router-dom, Axios, Node.js, Express and Sequelize.

RecipeBox | dc-recipebox.herokuapp.com | github.com/hptran7/Recipes-Project.git Nov 2020

- Recipe Box is your Modern-day Recipe Book, it can help even the most seasoned Cooks to very easily store and manage their Recipes on the fly while also enabling the culinary curious user to browse thousands of new recipes, via search by dish/ingredient.
- RecipeBox is built with Node.js, Express, SQL and Mustache Express.

Event Master | <http://event-master-dc.surge.sh/> | github.com/hptran7/EventMaster.git Dec 2020

- Event Master is an event-sharing app. At its basic, Event Master is about highly customizable rapid event invitation creating. In addition to normal event creation, this app allows users to notify their guests about any changes, updates, or warnings about Covid-19 exposure.
- Built with React, Redux for frontend and Node.js, express, sequelize and PostgreSQL for backend

Gachasphere | <http://gachasphere.surge.sh/> | <https://github.com/brodri4/Gachasphere-client> Dec 2020

- Gachasphere was built with the intention of being a central hub for all things mobile gaming. Due to the free-to-play nature of Gacha games, most players are actively playing multiple games at the same time. Unfortunately, the communities for each individual game remain isolated. Gachasphere hopes bridge the gap between existing communities and connect players from all over the world together.
- Built with React, Redux for frontend and Node.js, express, sequelize and PostgreSQL for backend

Professional Work Experience

Sunrise Plastics Enterprise | Houston, TX

Account Executive Apr 2019 – Sep 2020

- Worked closely with the Vice President of Sales to manage main accounts amounting up to 60-70% of sales revenue of the firm.
- Resolved customers' problems and complaints to maximize satisfaction.
- Supplied management with reports on customer needs, problems, interests, competitive activities, and potential for new products and services.
- Tracked all sales activities through the CRM system and update customers' account information on a regular basis.

Account Receivable Assistant Jan 2018 – Apr 2019

- Provided financial, administrative, and clerical support on a daily basis.
- Prepared, verified, and managed invoices for over 50 clients promptly that helped cut the customer invoices inquiries process time by 10 hours per week.
- Performed various account analyses and reconciliations.
